About Me

Motivated Electrical Engineering student with strong programming skills in Python and C, and hands-on experience in frontend web development using HTML, CSS and JavaScript. Skilled in UI/UX design with Figma and passionate about developing efficient, user-friendly digital solutions. Eager to apply technical and creative skills to real-world projects and collaborative environments.

Technical Skills

- **Languages:** Python, JavaScript, C
- **Web Technologies:** HTML, CSS, Basic React
- **Libraries & Tools:** OpenCV, Pandas, Git & GitHub, Figma
- **Core Areas:** Basic Electrical Circuits, Electrical Machines, Analog & Digital Electronics
- **Technical Areas:** IoT Fundamentals, Computer Vision, Frontend Development, Basic AI/ML
- **Soft Skills:** Teamwork, Communication, Leadership, Problem Solving

Education

B.Tech - Electrical Engineering	2023 – 2027
MAKAUT	CGPA: 6.78 (till 5 th sem)
Higher Secondary Education	2021 – 2022
88.8%	W.B.C.H.S.E
Secondary Education	2020
91.4%	W.B.B.S.E

Projects

Smart Traffic Management System for Urban Congestion

- Developed an AI-driven adaptive traffic and emergency management platform.
- Designed smart traffic routing and emergency vehicle prioritization features.
- Worked on frontend interface and system logic integration.

AI-Based Security Surveillance System

- Developed a real-time AI-powered surveillance system for human detection using webcam input.
- Implemented intruder detection with automatic alert image capture and timestamp storage.
- Used OpenCV and YOLOv8 for object detection and monitoring.

Interests & Hobbies

- Football & Cricket
- Sketching & Drawing
- Singing
- Travelling and Exploring New Places
- Video Editing
